("Etherstack" or the "Company")

Etherstack Wins Australian Mining Radio Network Expansion

Etherstack plc's Australian subsidiary, Auria Wireless Pty Ltd, today announced that it had won an expansion project to an existing digital radio network that has been in operation at Newcrest Mining Limited's East Cadia facility for the past two years.

Based on Etherstack's APCO P25 digital trunked radio network product line, provided to public safety, utilities and resource sector clients, the expansion will allow increased radio subscriber capacity at the facility.

"Each new digital radio network and each new repeat order through expansion, adds to the company's long term installed user base", Etherstack's CEO, Mr David Deacon said today, "Wins driven by superior product offering and quality customer support will contribute to our long term success. We are thrilled with the repeat Newcrest Mining order".

About Etherstack plc (ASX:ESK):
