**ASX Announcement**  
**ETHERSTACK PLC**  
(ASX:ESK)  
("Etherstack" or the "Company")

**Etherstack announces two Government contract wins**

Etherstack plc is pleased to announce two government contract wins.

Etherstack's Australian subsidiary, Auria Wireless Pty Limited has won a NSW Government contract to supply mobile communications infrastructure in support of firefighting activities.

The first order for AUD\$130,000 has been received with delivery planned for early in 2016. This order and expected future orders under the supply contract are forecast to contribute revenues of up to AUD\$850,000. The majority of this revenue is expected to be recognised in 2016.

In addition, Etherstack's US subsidiary, Etherstack Inc has won a Canadian government contract through a North American distributor. The contract is for the supply of fixed P25 digital radio network infrastructure for policing and public safety activities.

The contract value is USD \$144,000 and contract revenue is expected to be recognised upon delivery in 2015.

**About Etherstack plc (ASX:ESK):**

Etherstack manufactures and supplies digital communications equipment for public safety and other mission critical networks such as electric utilities. The company has previously supplied its fixed and tactical communications equipment to policing organisations in the United States, Canada and Australia, including the Royal Canadian Mounted Police and the Australian Federal Police.
